**Bird's-Eye Lessons on Air Quality:
Flock Together for Change!**

Navigation

Home exploration

1. Homepage

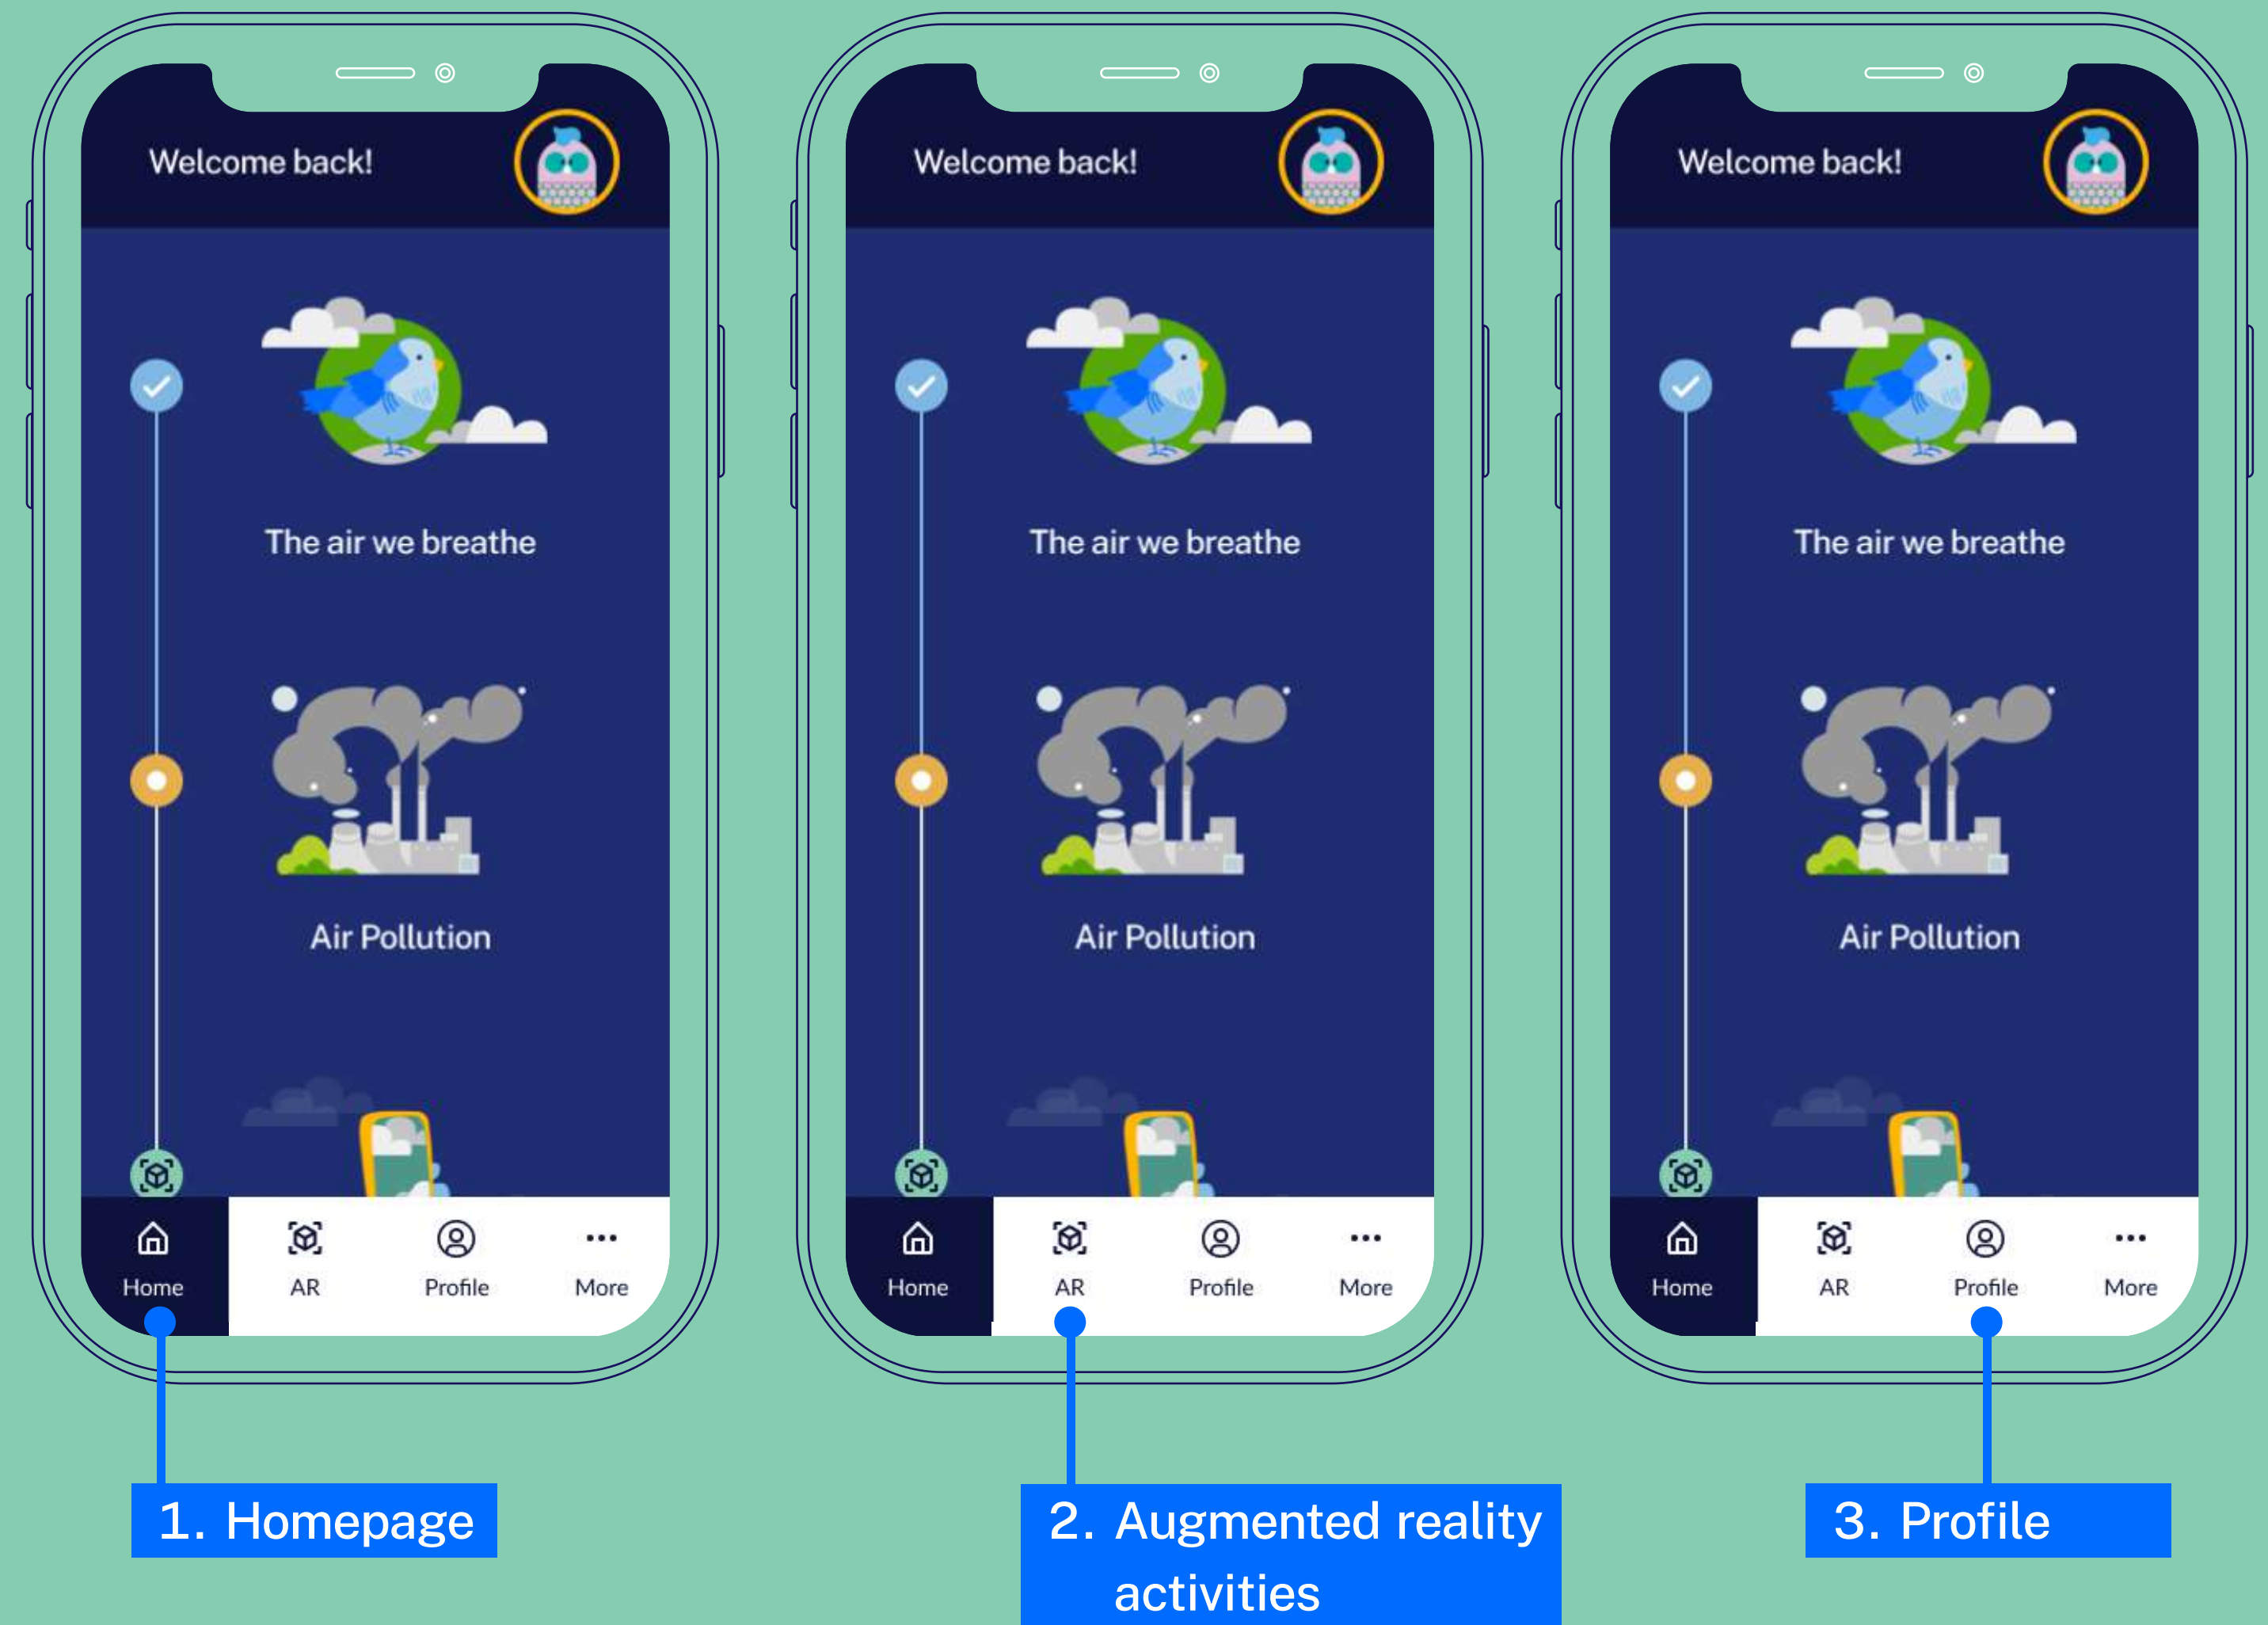

The home navigation icon takes you back to the central point of their learning journey.

2. Augmented reality activities

The Augmented Reality (AR) icon takes you to the lessons that have immersive AR features. Note that lessons can be completed in a progressive order, so unless you have achieved the previous lessons you will not be able to explore the AR ones.

3. Profile

The profile icon takes you to the screen where you'll be able to explore the lesson trophies, change their avatar and user name.

Home exploration

4. Lesson map

This is the central point of their learning journey, it lets you scroll and explore the different lessons and their names. By clicking on the name or image, you can enter each lesson and start exploring its content and challenges.

5. Lesson status

5. The lesson status informs the user of their progress related to the specific lesson:

- ✓ Achieved state
- Active lesson state
- Inactive state
- AR Achieved lesson state
- AR Active lesson state
- AR Inactive state

3. Profile

The profile icon, as well as the navigation button, takes you to the screen where you can explore the lesson trophies, and change the avatar and user name.

Profile personalisation

1. Trophy collection

Navigate to the Trophy section in your Profile screen to explore your achievements organized by lessons. Trophies will appear in grey for lessons that have not been completed, providing a clear overview of your progress.

2. User Name

Click the edit icon to change your avatar and user name

3. Data erasure

In the Data Erasure section, you can choose to erase all your locally stored data, including your username, avatar, and progress in lessons. Note that we do not collect or save any user data from your device.

4. Trophy view

In the 'View Trophy' section, explore, collect and download the unique trophy images for each accomplished lesson.

Explore the lessons

1. Select lesson

Click on the image or title of the lesson to explore its content and engage in an enriching learning experience

2. Intro Screen

Get insights into each lesson by reading the introductory screen to understand its content. When ready, simply click on the 'Start Lesson' button to commence your learning journey.

3. Discover

Embark on the 'Discover' phase in each lesson to delve into the air quality topic. Explore diverse interactions to deepen your understanding and enhance your knowledge.

Explore the lessons

4. Challenge

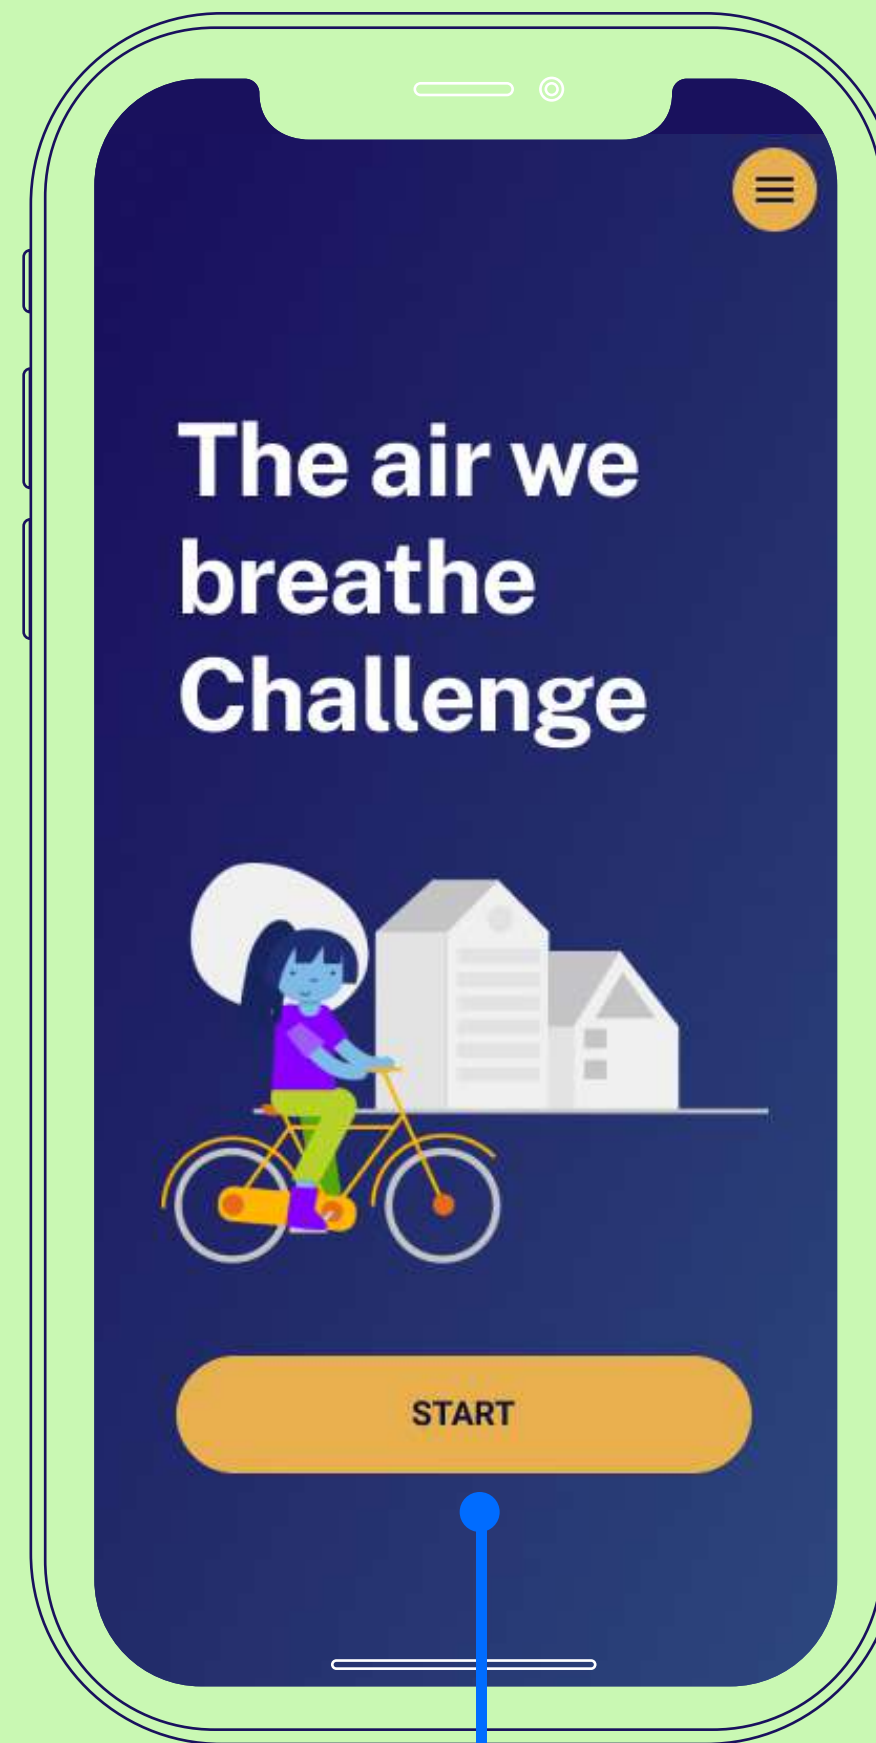

Engage with the challenge in each lesson, uniquely tied to the Discover phase, and put your acquired knowledge to the test as you assess your understanding in an interactive and rewarding way.

5. Challenge correct answer

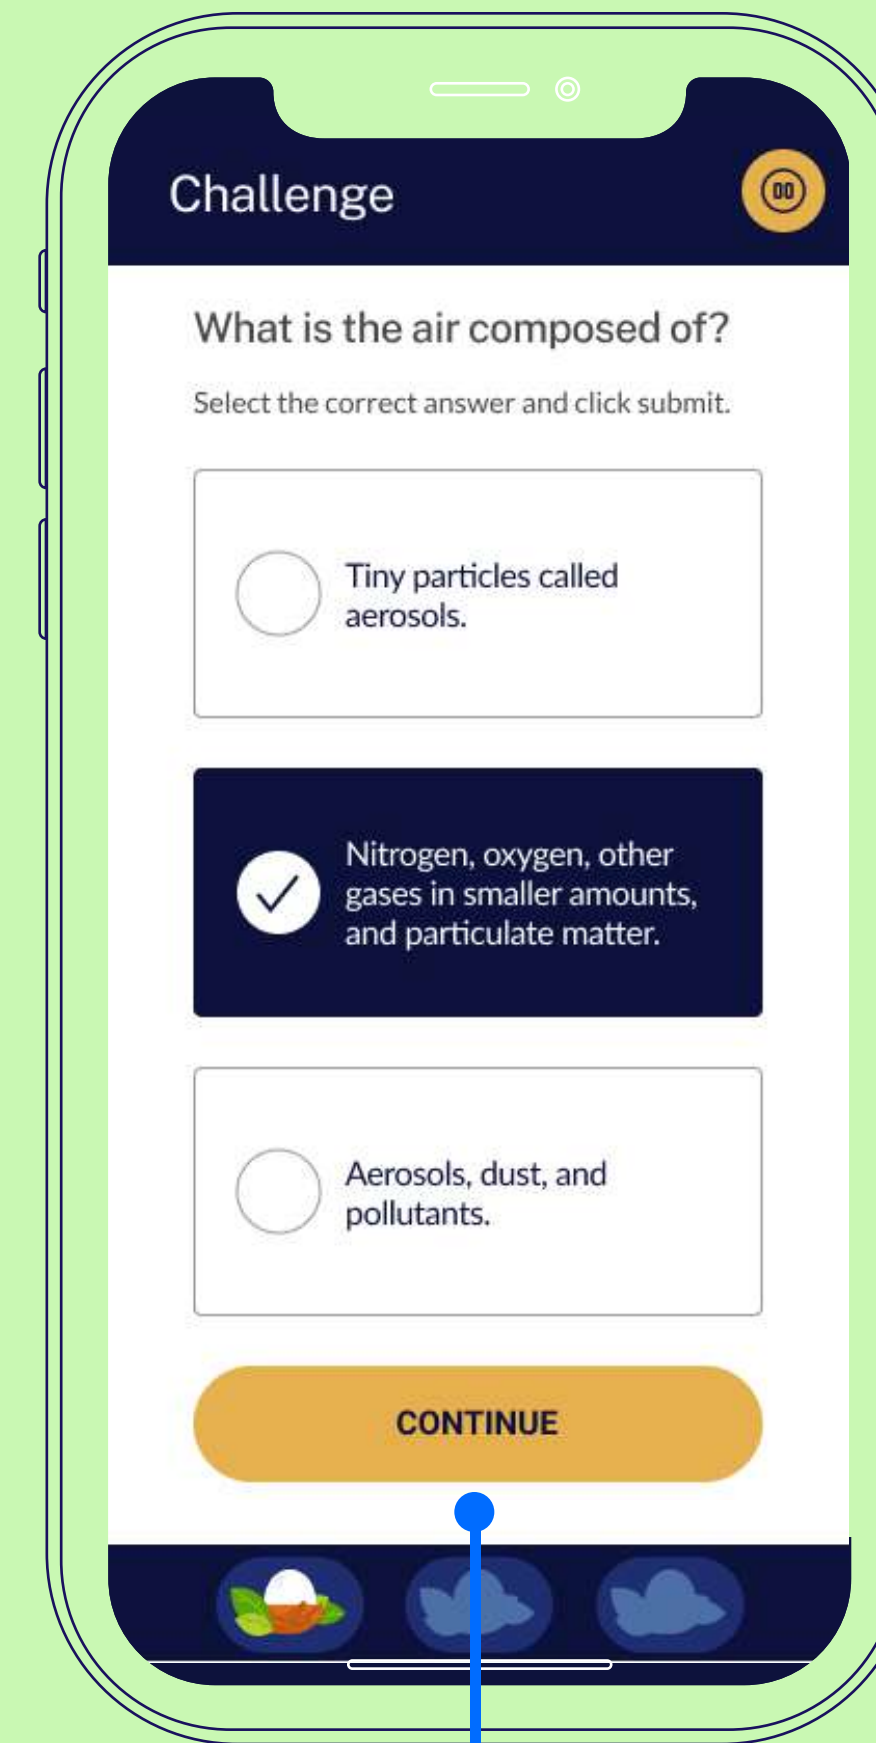

Upon providing a correct answer, progress to the next question and earn an egg as a symbol of your achievement.

6. Challenge incorrect answer

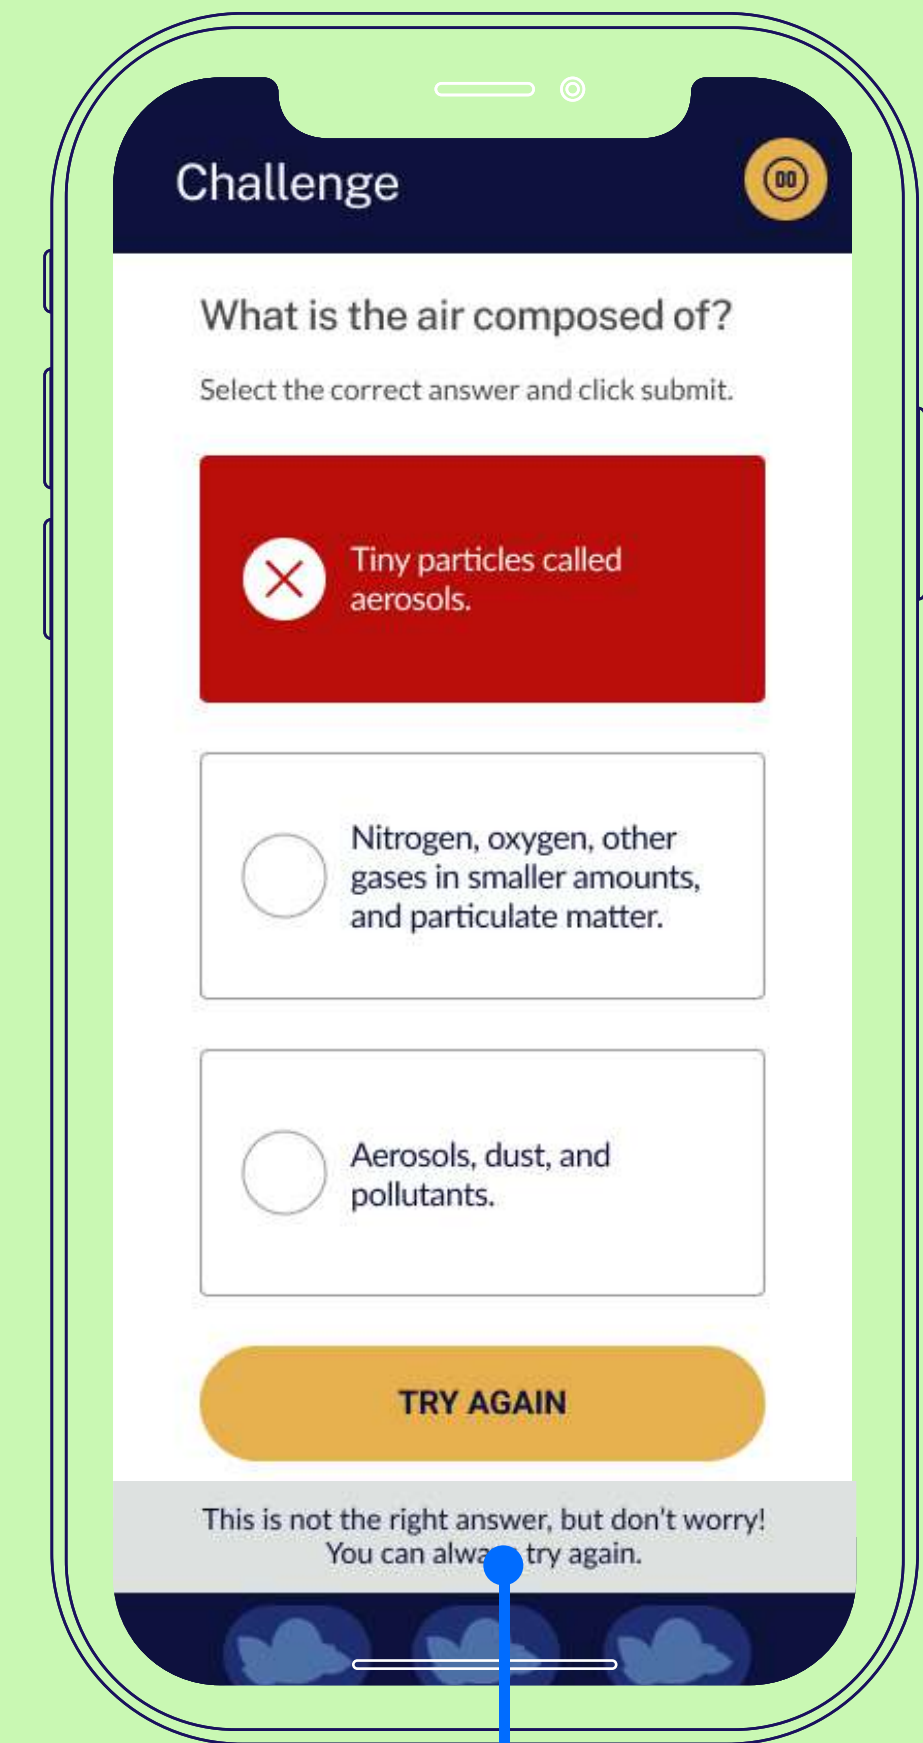

In the case that you answer a question incorrectly, you get a second chance to respond. However, if you have more than one incorrect answer, you will need to repeat the entire challenge to advance to the next lesson.

4. Challenge

5. Correct answer

6. Incorrect answer

Augmented reality lessons

Explore the Augmented Reality activities

1. AR Intro lesson

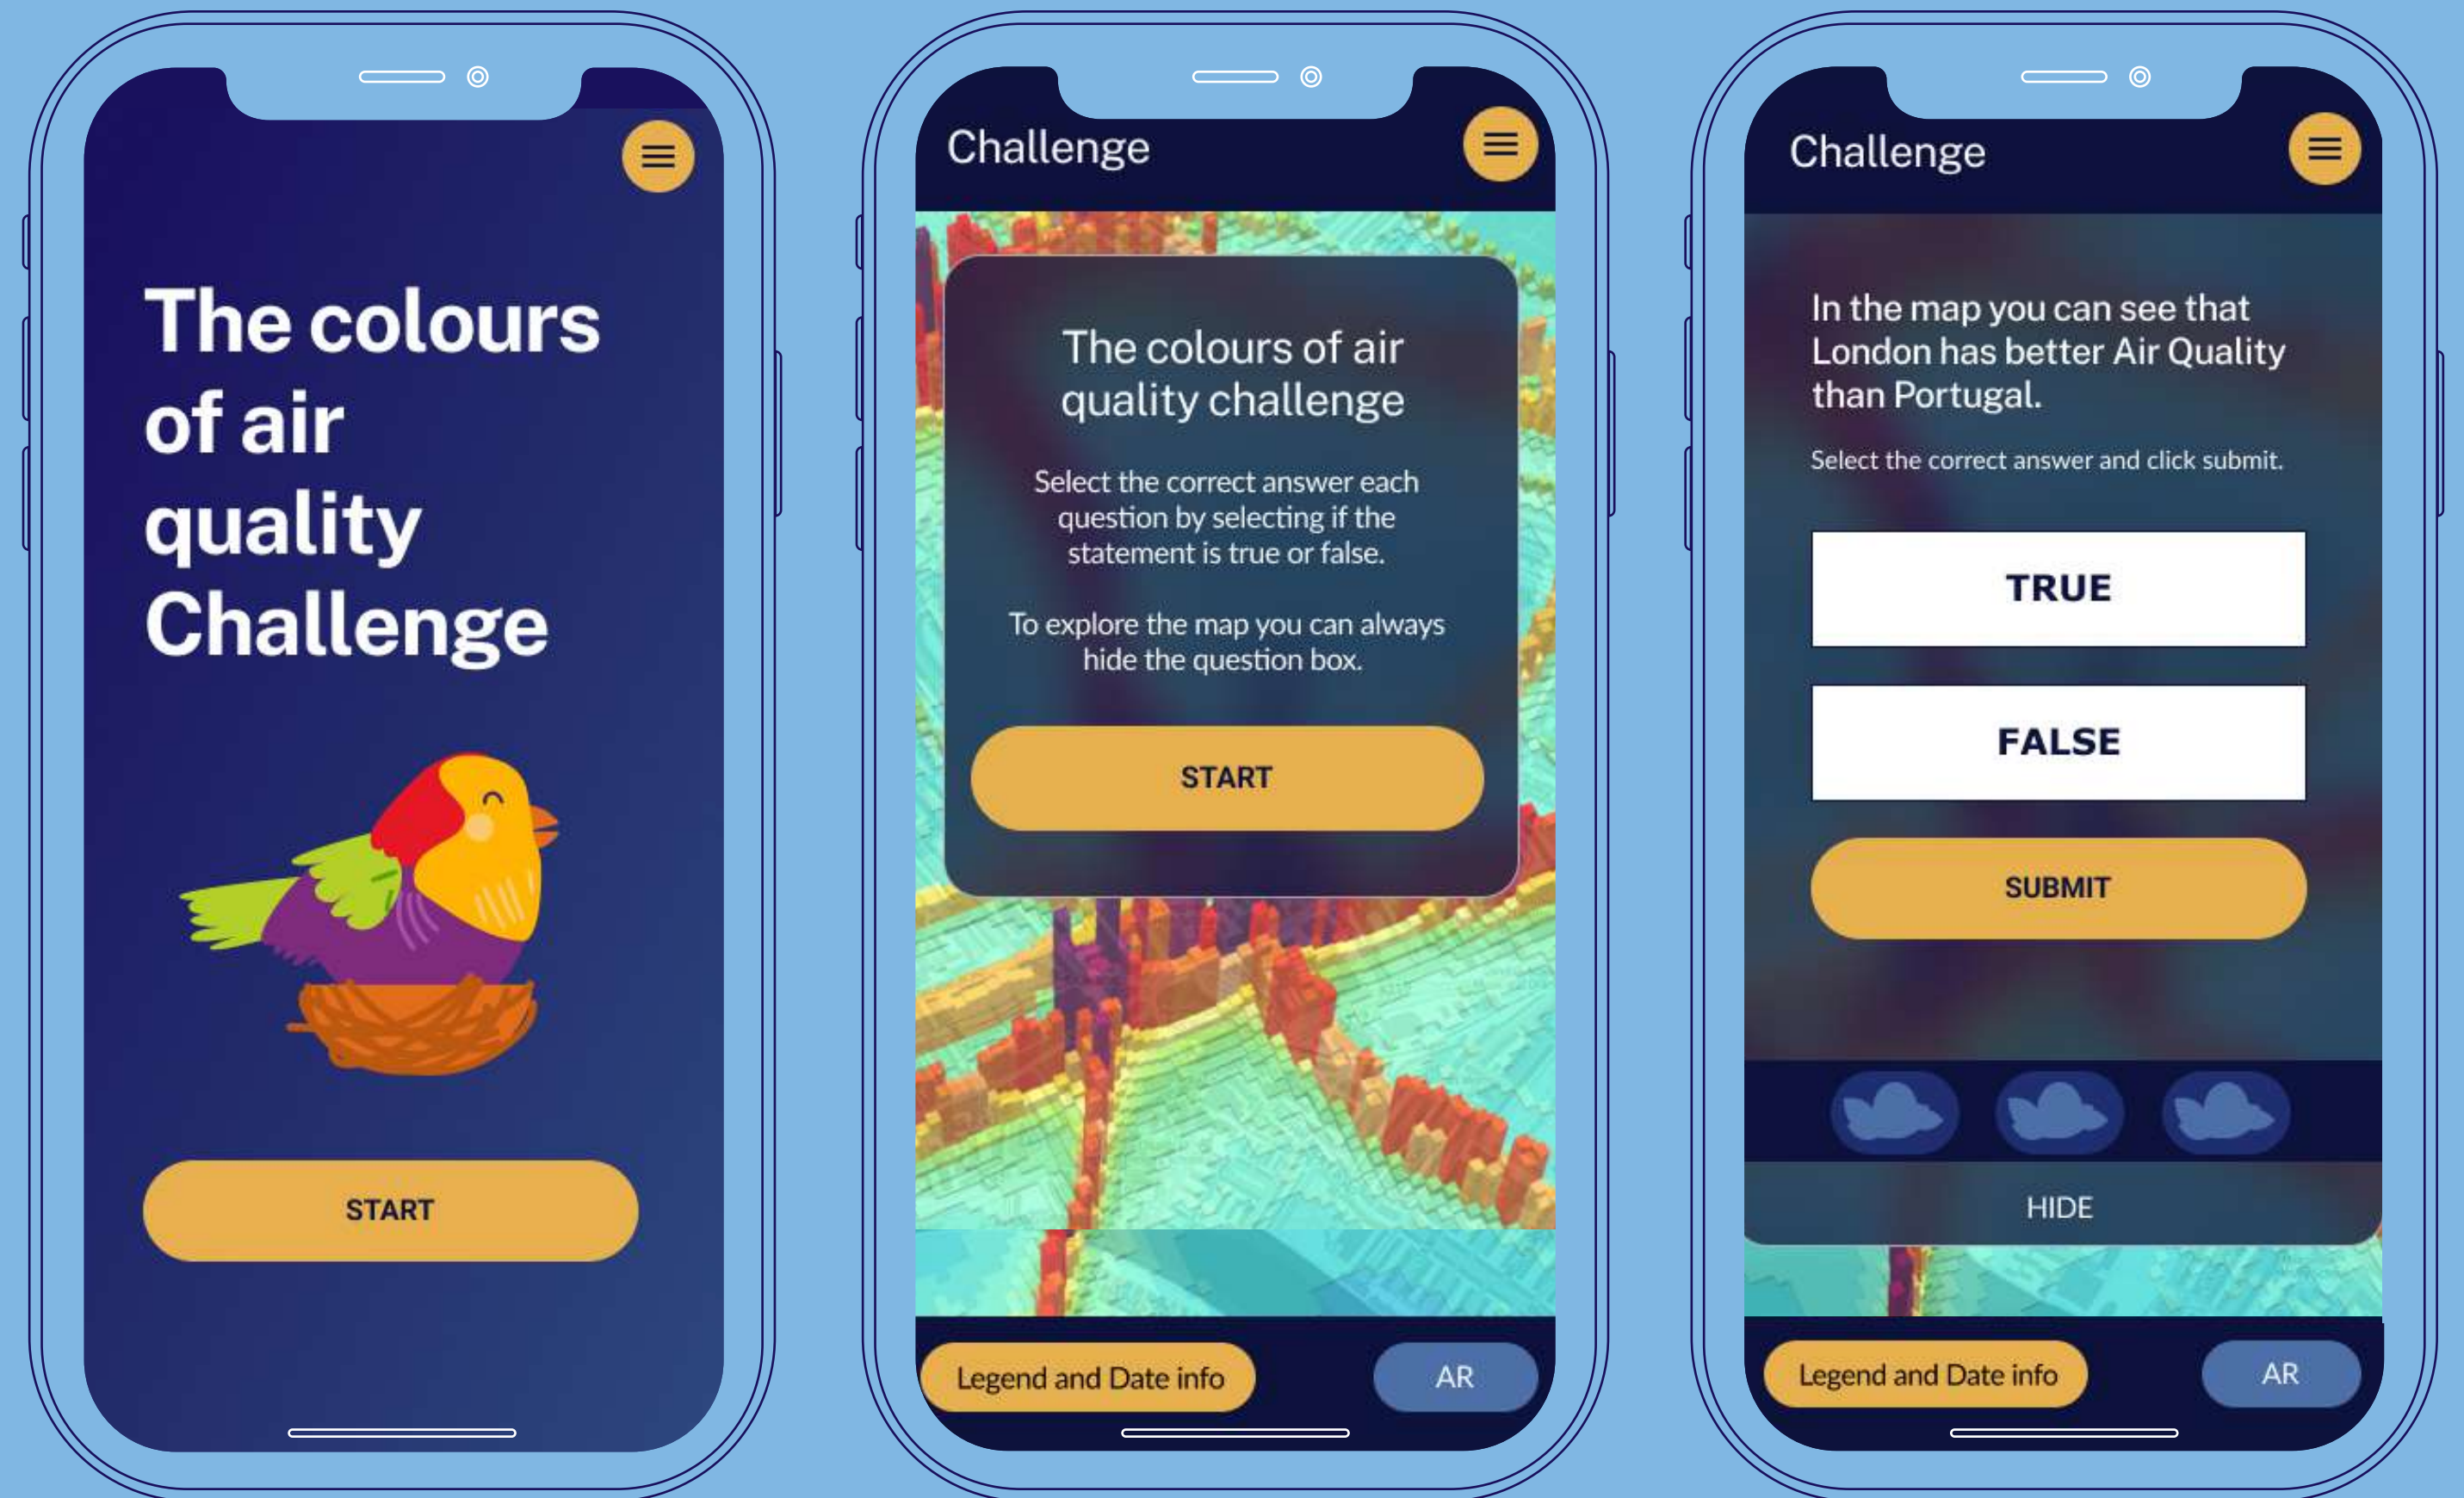

Initiate your learning journey by pressing 'Start' to explore the lesson

2. Explore

Whether through text or immersive 3D maps, immerse yourself in the lessons by exploring the rich information presented, tailored to enhance your understanding of air quality concepts.

3. Challenge

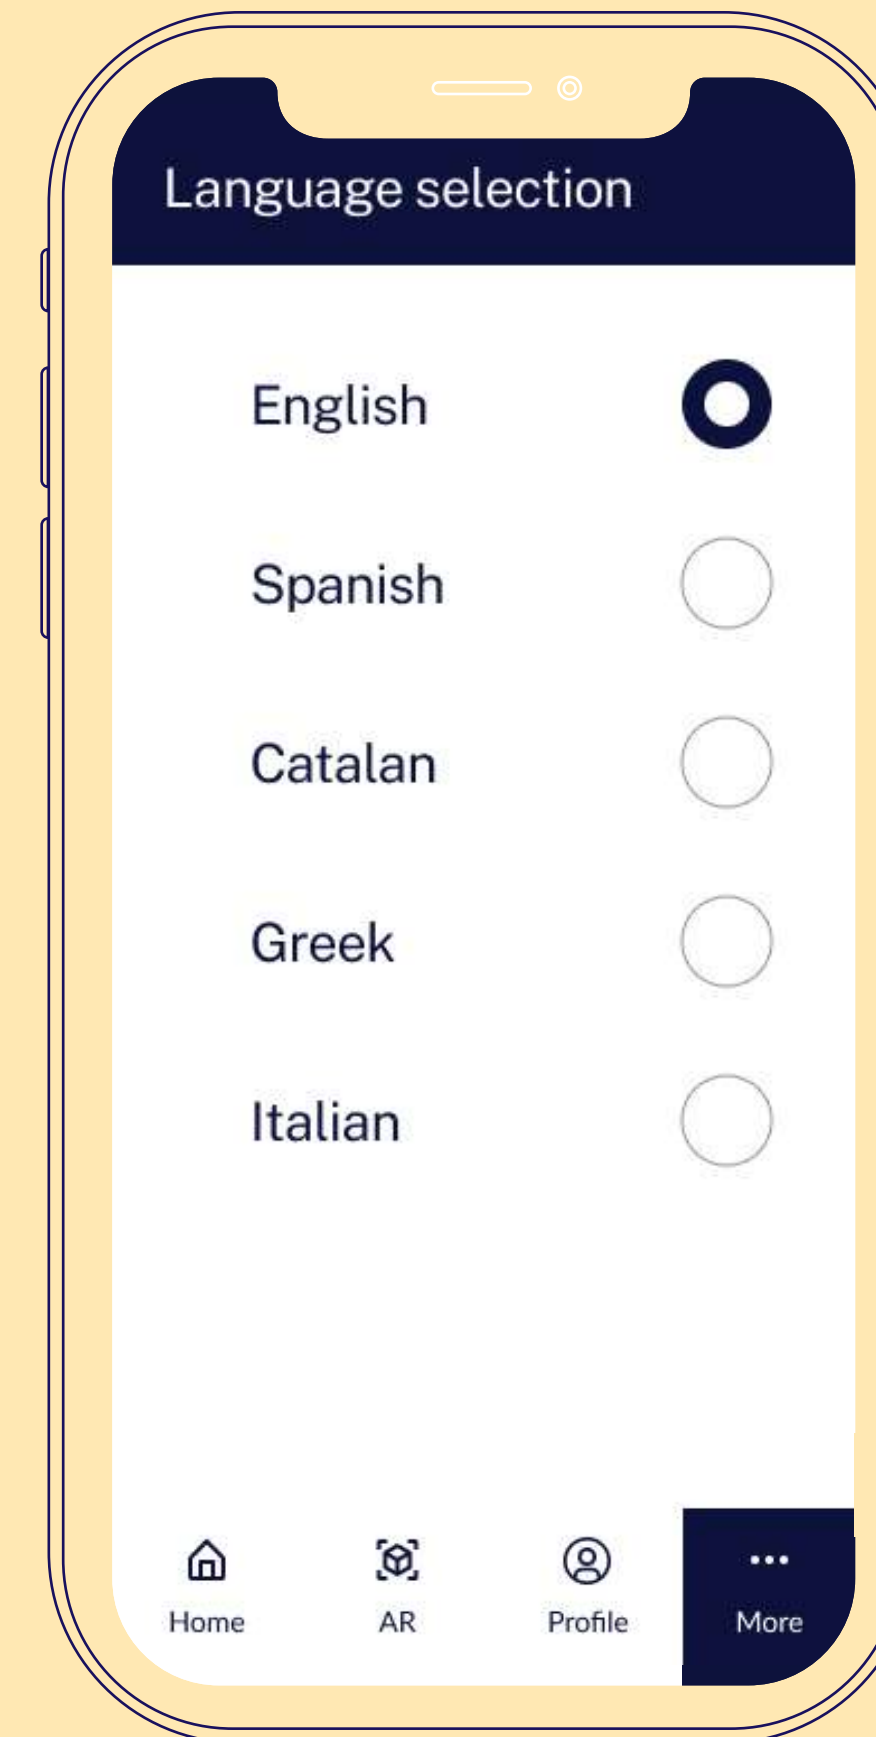

Engage with the challenge by responding to True or False statements, providing a dynamic assessment of your knowledge in an interactive and engaging manner.

Language selection

Language selection

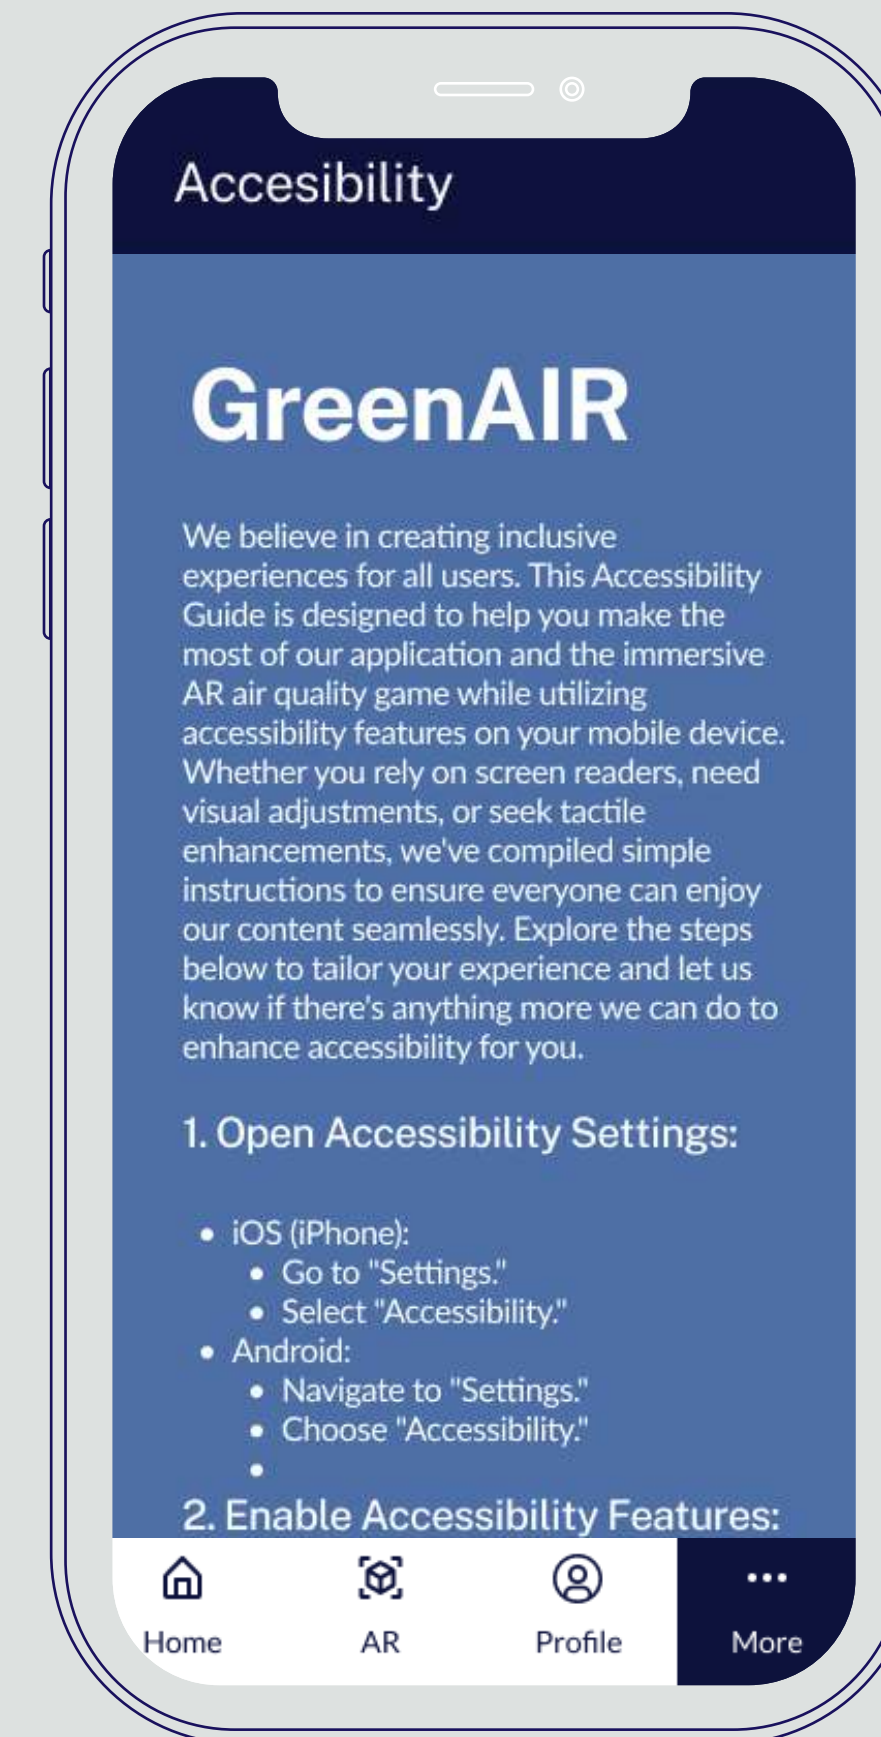

Tailor your app experience by selecting your preferred language in the Language Selection, ensuring a personalized and accessible learning environment.

Accessibility screen

Accessibility

Visit the accessibility screen to refine your learning environment. Here, you can adjust the font size, contrast and link appearance to create a personalised and accessible experience, ensuring that the app accommodates your preferences and enhances overall usability for a more comfortable and enjoyable learning journey.

Extra material

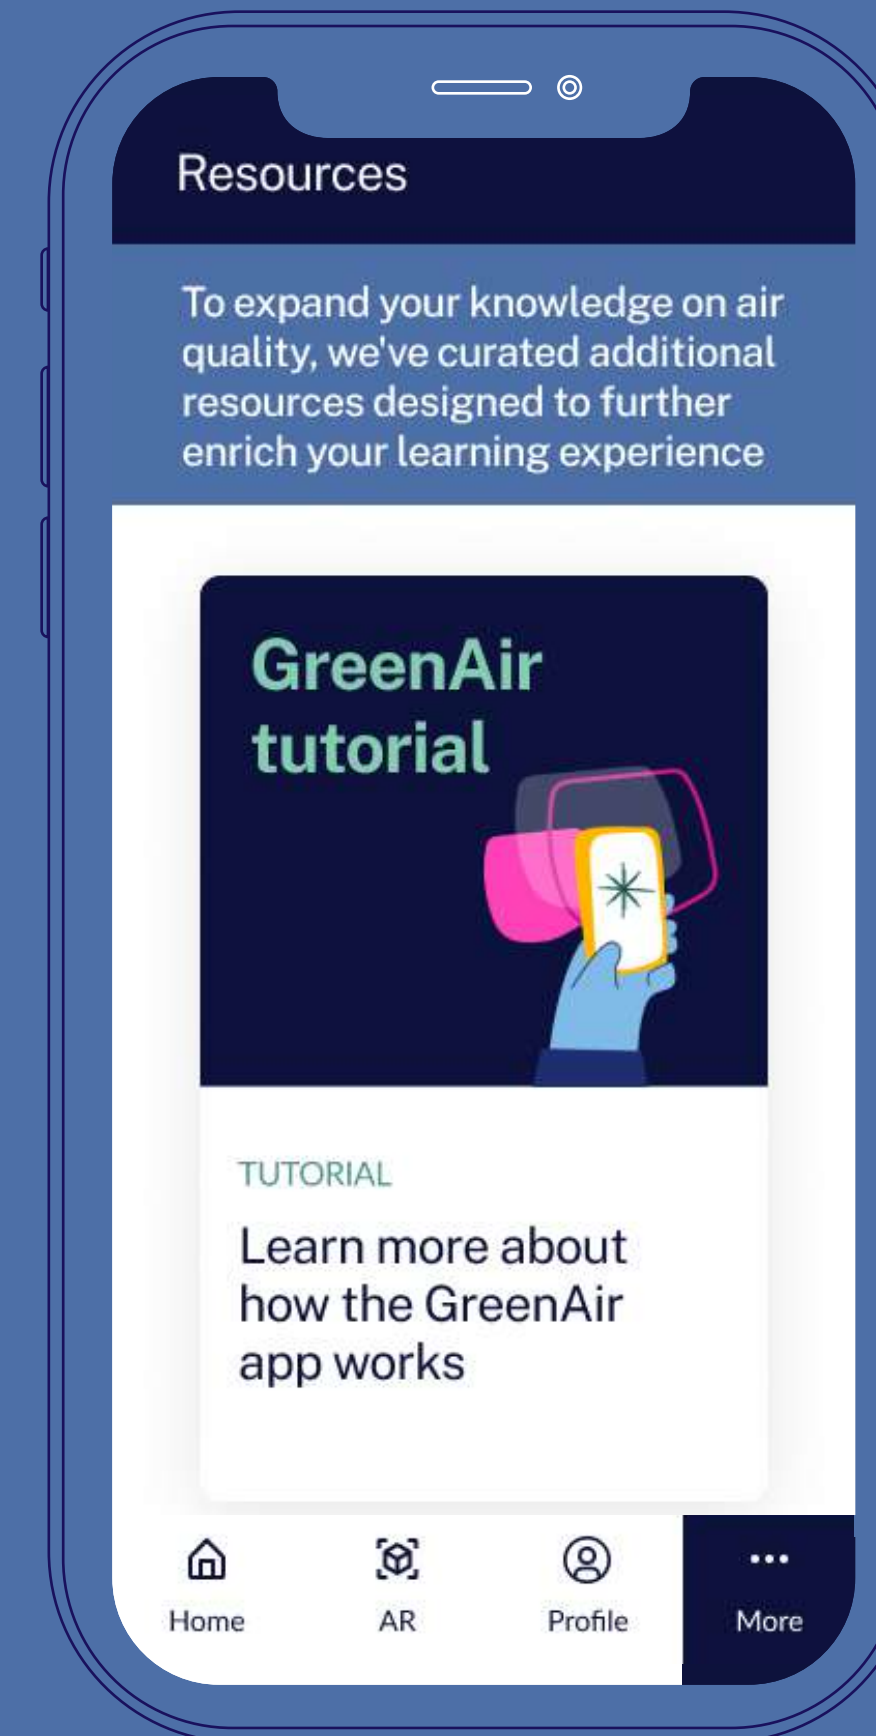

Resources

To expand your knowledge on air quality, we've curated additional resources designed to further enrich your learning experience. The resources are only available in English for now.

The augmented reality lessons visualise data from the CALIOPE modelling system, developed by the Barcelona Supercomputing Center. You can find more information about the CALIOPE modelling system in the following website:

<https://www.bsc.es/caliope>

You will also be able to find more links to expand your Air quality knowledge in this screen.
